Hospital-Determined Presumptive Eligibility (HPE) Program

- The Affordable Care Act allows qualified hospitals to make presumptive eligibility determinations for certain individuals who appear to be eligible for Medicaid coverage.
- Improves individuals' access to Medicaid (MassHealth) and necessary services by providing another channel to apply for coverage.
- Provides temporary benefits while allowing for immediate access to MassHealth coverage for eligible individuals.
 - Coverage will be from the date of the HPE determination to the end of the month, the determination was made.
- Ensures the hospital will be reimbursed for services provided.
- Provides individuals with an opportunity to be connected to longer-term coverage options.

Hospital-Determined Presumptive Eligibility (HPE) Program (cont.)

- Only individuals who are unable to complete a full ACA-3 application at the time that they seek MassHealth coverage may apply for HPE. If MassHealth receives a full ACA-3 application and an HPE application for the same individual on the same day, only the full ACA-3 application will be processed.
- To retain coverage after the expiration of the HPE period, applicants must submit a full application before the HPE coverage end-date.

HPE Extensions During COVID-19 Emergency (cont.)

- Generally, MassHealth does not allow individuals to apply for HPE if they have been approved for MassHealth benefits through HPE within the past 12 months or enrolled in MassHealth Standard, MassHealth CommonHealth, MassHealth CarePlus, or MassHealth Family Assistance within the previous 12 months.
- MassHealth is temporarily suspending these restrictions.

HPE Extensions During COVID-19 Emergency (cont.)
