Disability Evaluation Services (DES), part of the University of Massachusetts Medical School, is looking to add medical professionals to our provider network to conduct client exams in order to assist DES in making determinations when sufficient medical information is missing from a treating source.

DES is seeking Massachusetts-licensed physicians and psychologists, along with physician assistants, and nurse practitioners, LICSWs, and clinical nurse specialists (co-signatures of a supervisory physician or psychologist, as appropriate, would be needed) to join the DES provider network.

By joining our network of providers you will be able to supplement your practice’s revenue without incurring the burden of unnecessary and excessive administrative costs. If you join our DES provider network, you will:

- Have the opportunity to set your own schedule and dictate the number of patients you wish to see
- **Incur little to no administrative costs** as we at DES do all the scheduling to suit your preference and also provide transportation and interpreters, if needed. We also make all reminder calls 24 hours in advance of the appointment and the patient will receive transcription services at no cost
- Realize a **revenue stream** of $155.51 per consultative exam (physician/psychiatrist) and $120.41 if a psychologist (if testing is required there is additional compensation), and there is no involvement with insurance and you will be compensated on receipt of the medical report
- Be **provided with a clear template** for what is required in your reports, and
- Have **no future obligation or liability to these clients by joining our provider network**, and will not provide treatment for clients

Your only role is to conduct an independent examination, by gathering a history, evaluating symptoms and collecting specific information identified by our trained reviewers. Your report will present objective clinical evidence that substantiates your findings, which DES will use in conjunction with other evidence.

If you would like to discuss joining our network, please respond by email to Davce.moore@umassmed.edu or call 781-588-3384.
